

VACANCY

POSITION – AUTO MOTOR VEHICLE ELECTRICIAN

LOCATION –SIMBA FARM, RUMURUTI

REPORTING TO

Workshop Manager

Company Profile

AAA-Growers Limited is among the leading Kenyan exporters of different types of Vegetables, Flowers, and Avocados. We are looking for an Auto Motor Vehicle Electrician for our Simba Farm in Rumuruti.

Job objective

As the Auto Motor vehicle electrician your role will involve undertaking automotive electrical maintenance, repairs of electrical wiring and computer-based equipment in motor vehicles, tractors, agricultural equipment and trucks.

Your tasks and responsibilities

- To diagnose and undertake electrical repairs as per the job cards.
- Service, identify and repair faults on electronically controlled vehicle systems such as electronic fuel injection, electronic ignition, anti-lock braking, automatic transmission, airbags and air conditioning.
- Install electrical equipment such as gauges, lighting, alternators and starter motors in vehicles tractors trucks and buses.
- Install electrically operated accessories such as radios, heating or demisting equipment, driving lamps and anti-theft systems.
- Refer to circuit diagrams and use meters and test instruments to find electrical faults.
- Test, recondition and replace faulty alternators, generators, starter motors and related items such as voltage regulators and batteries.
- Repair or replace faulty ignition, electrical wiring, fuses, lamps and switches.
- To complete all documentation including inspection sheets and Job cards
- Ensure hazardous waste is disposed correctly.
- Attend to breakdowns and assist with work in other section when requested.
- Follow Standard Operating procedures and adhere to health and Safety regulations regarding safe use of tools and safety wear.
- Perform other duties as requested by management.

- Personally accountable for all electrical stock items including workshop and equipment batteries

Your profile

- A Diploma or Certificate in Electrical Engineering, Automotive Engineering, or a related field.
- Specialized training or certification in automotive electrical systems.
- A minimum of 3-5 years of experience as an Automotive Electrician or in a similar role, preferably with experience in working with a variety of vehicles, including tractors, trucks, and buses.
- Experience with diagnosing and repairing electronically controlled vehicle systems such as electronic fuel injection, electronic ignition, anti-lock braking, automatic transmission, airbags, and air conditioning.
- Proficient in reading and interpreting electrical schematics and circuit diagrams.
- Skilled in using electrical diagnostic tools, meters, and test instruments to find and repair faults.
- Ability to install and repair electrical systems and accessories in vehicles, including lighting, alternators, starter motors, and anti-theft systems.
- Knowledge of safety procedures and regulations related to hazardous waste disposal and safe use of tools.
- Strong attention to detail with a focus on quality and safety.
- Good communication skills, both written and verbal, for completing job cards, inspection sheets, and other documentation.
- Ability to work independently as well as collaboratively in a team.
- Problem-solving skills with the ability to attend to breakdowns and assist in other sections as needed.

We offer.
